

I know that March is right around the corner and our videos in PD360 must be watched by March. If you haven't been on the site in a while they have changed the look of the site. I have found one way to get to the videos that need to be seen.

Here are the directions:

1. Login to pd360.com using your complete e-mail address and pd360 as your password
2. Once logged in scroll down to the bottom of the page and find the icon focus
3. Click on the District Focus
4. Click on Classroom Instruction that works.
